

Welcome to the Holy Family Society State Councils!

Catholic Holy Family Society is thrilled to introduce virtual State Councils. Fraternal councils bring together people who share a common bond. As a fraternal organization, Catholic Holy Family Society strives to bring brotherhood and friendship to its members and the community. With members all over the United States, the Society wanted to find a way to connect its growing fraternal family. Virtual state councils have been created so that our members have a place to meet and share ideas.

The Society's state councils provide a meeting place where members can read and share news and information pertaining to their special interests, the area in which they live, and the Society. All members of the Society are welcome to become a part of these state councils. This part of our website will be updated regularly, so please check back often. Please click on your state in the left menu to view your state council page.
